

Rollershield

Supply options

Features & Benefits

- A flexible combination of wood fibre strips and special paper / plastic coatings - excellent mechanical protection and scuff resistance.
- Manufactured to ISO 9002 and ISO 14001 - assured quality and environmental friendliness, recyclable.
- Seawater resistant, UV stable, antirust protection in a single wrap. Multi use and multi functional.
- Lamiflex replaces wood-cases / slats and layers of paper / plastic wrapping - with big weight savings.
- Logo printing on outer surface - a marketing plus.
- Potential for automisation of wrapping / packing process.
- Additional 50mm x 50M superior sealing tapes available
- Supplied fan folded on pallets cut to any desired length up to 6.20 m (20ft), Rollershield offers huge savings in packing / despatch time for a whole range of products.
- Tubes, bars, rods, profiles, cylinders, shafts. Quick and easy to use every time.
