

## Nylon Curing Tape

Rollertech Nylon Curing Tape has been geared towards the Rubber Products Industry. These industries include, Rubber Hose, Rollers, Belting and fabric reinforced rubber sheeting.

Our Nylon curing tape is used in many Blue Chip Manufacturing Companies around the world.

The curing tape is a stocked line for the Rubber roller and hose manufacture businesses.

However, we can also supply Spun Polyester and Rachel knit fabrics for the fabric reinforced rubber belting and rubber hose sectors.

In addition to the rubber products industries we also supply heavy cotton belting for the Lead Acid Battery Industry as well as Weft Knit Fabrics for the laminated Products Industries, servicing tent top and graphic printing industries.
